## INFORMATION

---

---

We stand back of our stock to the extent of gladly making replacements where we feel that the claims for such are justified, although the **only guarantee** we make is that the plants will be true to name, up to grade ordered, and will arrive in fresh condition. We shall consider only such replacement claims as are reported to us by Sept. 1 for stock delivered the previous spring or by May 15, for stock delivered the previous fall. We allow no deductions for stock which may die.

Our terms are cash in full on delivery. We grant short term credit only to established accounts or to new accounts having satisfactory references.

We do not pay express and freight charges in as much as our prices are not fixed to cover these charges. Prices do not include planting. Truck delivery free of charge wherever feasible.

We prefer that all orders total at least \$1.00.

We will gladly quote prices on sizes larger than listed in the price list. On large size selected specimens, caliper as well as height will govern the price.
